Hi Jim,

I think the 1 hour meeting was great, it was informative and I think it would help those that are interested in a system

that is relative easy to follow and enable one to make money on small swings in the market using options.

Thank You,

Randy B.

Get to know option professor on one of online webinar as a speaker, and was impressed by his concise way explaining of market movement. During educational hour with him got clear understanding how to use different MA and RSI, as a main tools to catch a movement in right direction. Definitely recommend to receive education from him

07/12/23 - QUICK ALERT! Stocks-Gold-SHORT TERM
Options SPIKE on CPI**

OUR OPINIONS & VIEWS

IMPORTANT! We have noticed that M2 Money Supply Growth vs Inflation **BOTTOMED** in April at **NEGATIVE 4.84%** from the **PEAK** in 2021 of **POSITIVE 26.32%**! In **MAY**, M2 was **-3.99%** and in **JUNE -3.10%**..NOT HUGE...but see what's happened since **APRIL** and what's happening **NOW!**

Does this mean the Fed is starting to print again? With China deflating, is the Fed worried about **DISINFLATION** turning into full on **DEFLATION**? Stock prices have gone thru the roof since **APRIL**. Transports & Industrials have been on fire. Small Caps are **UP** big time. The **DOLLAR** is tanking! Homebuilders are going nuts. **YIELDS** have backed off recent highs. Will the **FED CUT RATES**? No Way! The Fed will quit when **LABOR** quits!

The same **SECTORS** that got **HURT** with a **CONTRACTION** in M2 Money Supply Growth, the same that may **THRIVE** if M2 Growth continues **UP!** We have already seen stocks **ACCELERATE** to the **UPSIDE** since M2 hit the **LOWS** in **APRIL**. The **QUESTION** is what **SECTORS** may Catch Up?

FRIDAY, We get **BANK EARNINGS**. We also **REBALANCE** the **NASDAQ!** Investors are **NOT** ready for a **SELLOFF** in Tech?? and a **SPIKE** in the **VIX??**

ENERGY, **METALS** (Gold-Silver-Industrial), **DIVIDEND** paying Stocks, and **INTERNATIONAL** may have a **VERY** bright future **IF** M2 keeps **RISING**. The **DEMAND** vs **SUPPLY** for Energy, Metals (infrastructure, EV Batteries ect), and **VALUATIONS** on International Markets are very compelling **WE HAVE IDEAS TO SHARE HERE.**

How Do You Play it? We have **OUR VIEWS**. We also have taken advantage of **OUR** indicators **RSI DIVERGENCE-MA'S & REVERSION** this week! Many of you **TRADE SHORT TERM OPTIONS** for the leverage and limited risk (buy side) and we do as well. This is risky **BUT** exciting as well

We flagged the **METALS & ENERGY STOCKS** this week as great candidates for weekly option opportunities. These options have spiked up. The Option Professor **EXPLAINS/SHARES** the same indicators he used to Trade **OVER \$32 Million** in Short Term Stock Trading in 1 Year!
