Hi Jim,

I think the 1 hour meeting was great, it was informative and I think it would help those that are interested in a system

that is relative easy to follow and enable one to make money on small swings in the market using options.

Thank You,

Randy B.

Get to know option professor on one of online webinar as a speaker, and was impressed by his concise way explaining of market movement. During educational hour with him got clear understanding how to use different MA and RSI, as a main tools to catch a movement in right direction. Definitely recommend to receive education from him

08/18/23 - We Said S&P To Drop from 4600-How Did We Know That?

OPINIONS & OBSERVATIONS

THIS MONTH, if you have just sat on your LONG positions, you probably have seen your account values drop quite a bit.

We said that the S&P 4600-4650 area was a SELL ZONE and so far, the decline has been as much as 200 points in 3 weeks!

If the S&P was going to drop the way it has, did you really think NASDAQ & RUSSELL were going to go up? Those odds stink..

Trimming, Hedging (do you know how to do that?), Replacement Trades (do you know how/what this means?) has been smart.

Why haven't more of you contacted us at optionprofessor@gmail.com and LEARN Our How OUR Indicators gave OBVIOUS signals?

Many of you have no idea about all the ways to reduce risk in both STOCK and OPTION positions to protect the values BEFORE drops.

Many of you are trading SHORT TERM Options and ZERO DTE Options. We believe we can ADD VALUE to your trading of these and others.

BOTTOM LINE- We have a FREE TRIAL OFFER so you get an idea of what we do and how it could help you. EMAIL US and Get it TODAY!

There is a LOT of Noise out there BUT have your guys ever TRADED OVER \$32 Million in Proceeds in 1 year? Doubt It. We Have.

Have your guys been trained at The Options Institute at the CBOE? Personally traded THOUSANDS of Option Contracts? We Have.

C'mon, whether your an old dog who could use some NEW tricks OR a newcomer who needs CLEAR explanations on trading....We Can Help.

What about the MARKETS RIGHT NOW? The S& P has Resistance at 4460-4520 short term and support at 4340 and after that much lower.

Treasury YIELDS are accelerating to the upside (we told you short term T-Bills and rolling them was the sharp thing to do). The DOLLAR has rallied off the sub 100 (DXY) exactly as we forecasted. OIL rallied off 65-67 and accelerated after breaking 76 as we forecasted BUT now faces a challenge at 85 (if broken may open the door for 100). GOLD has been unable to CLOSE back above \$1980 and WAITING until it does is smart.

We can analyze all the listed STOCKS you may be interested in and provide an Opinion on what OUR indicators show as the TRENDS for each.

IMPORTANT! We are off to vacation in France soon (Giverny, Saint Remy, Aix en Provence) plus the beautiful islands of Corsica & Sardinia.
So, if you want to Get Your FREE TRIAL OFFER and see how we can help you, EMAIL US at optionprofessor@gmail.com. It's a FREE OFFER..

Thank You & Look Forward to SHARING What We Know With You.
