"In a world of countless analysts, Option Professor stands out. His sense of perspective on all markets and sectors elucidates the big picture, as well as the shorter term. His observations have been remarkably prescient. He is a true, selfless teacher, being highly accessible and incredibly generous with his time. I regret that I did not find this class-act earlier."

-Dr. George Fee

I think the 1 hour meeting was great, it was informative and I think it would help those that are interested in a system

that is relative easy to follow and enable one to make money on small swings in the market using options.

*Thank You,
Randy B.*

OPINIONS & OBSERVATIONS

The Option Professor-traded Thousands of Options-Educated at The Options Institute CBOE-Helps Traders LEARN More!

The Fed came out and essentially said they will tolerate higher inflation numbers and the carrot (rate cuts) and stick (when?) remains. The stock market SPIKED (everything rally) up making record closes across the board. The VIX filled the GAP at 13 and now has a 12 handle.

In addition to the SMH and QQQ the rally has broadened out. Energy OXY HAL SLB and Metals FCX Financials JPM all have Calls on the move. Of course, we identified these moves BEFORE they happened. NOW, what does one do to PROTECT gains (exit) or ENGAGE (enter) markets??

I will use MY Timing Indicators to help with my decisions to do both with the goal of RISK MANAGEMENT and REVERSION to the MEAN. Using my combination of moving averages (trend) and relative strength (momentum), I make conclusions on EXIT & ENTER strategies.

MANY investors and option traders either get into winning trades with no real strategy of getting out OR have missed these moves entirely.

This is where we could help. I can explain choices of rolling, repairing, replacement, spreading, collaring used to PROTECT or EXIT positions. I can also EXPLAIN the REVERSIONS to the mean where technical support may provide a much more attractive place to ENTER positions.

Not to Boast...but I have traded thousands of options and traded millions in stocks. I EXPLAIN options trading to NEW & EXPERIENCED traders. Do you think I can help you LEARN more? I believe so. The markets are having an UNUSUAL RUN for 5 months. How to Manage VOLATILITY?

How to start? Easy! Go to optionprofessor.com or email me at optionprofessor@gmail.com and provide contact info. I'll call you back myself. GET a LINK to my timing indicators and a 1 hour ONLINE meeting to LEARN how I interpret them and REVIEW what you are doing. Good Deal.

STOP! Overpaying for Newsletters, Chat Rooms and Lousy Services. It's time to go to an informed source who explains things to you 1 on 1.

Look forward to speaking to you.....I have LIMITED time to help you....next week is a shortened holiday week.....so contact me today.

Thanks,
Jim
