"In a world of countless analysts, Option Professor stands out. His sense of perspective on all markets and sectors elucidates the big picture, as well as the shorter term. His observations have been remarkably prescient. He is a true, selfless teacher, being highly accessible and incredibly generous with his time. I regret that I did not find this class-act earlier."

I think the 1 hour meeting was great, it was informative and I think it would help those that are interested in a system

that is relative easy to follow and enable one to make money on small swings in the market using options.

*Thank You,

03/27/24 - Will Investors Be April Fools After PCE-Powell on Friday?

OPINIONS & OBSERVATIONS

The Option Professor-Traded Thousands of Options-Millions in Stocks.
Educated at The Options Institute CBOE-Advanced Options Training

The markets have been meandering in pre-holiday trading but that may all change on Friday when markets are closed.

The PCE numbers come out and unless they are from another universe they should be elevated. This follows suit of CPI & PPI numbers.

Fed chairman Powell speaks as well and what he says may either accelerate these markets skyward or throw cold water on the exuberance?

Whether it be the S&P 500 on the verge of New Highs, GOLD on the verge of + \$2200, or OIL on the verge of \$84+, TNX & VIX sell off and not to mention the US Dollar and BitCoin +\$70 Grand....Friday may have a dramatic effect on VOLATILITY as we return Monday on April Fools Day!!

The natural resource trade is picking up steam (energy-metals ect) as well as small caps (IWM VBK) and mid caps (VOT) which are not at all time highs. I have told everyone that some stocks in tech have already rolled over and RSI divergences told me that the darlings are tired.

If for whatever reason the PCE comes in soft and Powell talks dovish, we have dodged a potential bullet HOWEVER in the number is hot and Powell decides to talk about inflation declines "will take time" and throws water on the exuberance then April could start with a whimper as we prepare for EARNINGS season which kicks off with the banks as usual around APRIL 12 JPM and let's not forget BitCoin halving APRIL 19!

RIGHT NOW is a great time for us to talk about your trading CHOICES whether you have GAINS to protect or need ENTRY levels technically.

Do you have option positions that could go either way? Do you have stock values to protect? Do you have too much cash & need entry levels?

Whether you are new to trading OR are experienced at trading, now is a great time to get MY Timing Indicators and discuss strategies and risks

Not to Boast but I have traded thousands of options contracts & millions of dollars of stocks. The Options Institute-Advanced Options Training

Do you think I can help you? I believe so. Do you UNDERSTAND the choices you have in options? Could you IMPROVE your Timing & Trading?

Here's how I can help you. Go to optionprofessor.com or email me at optionprofessor@gmail.com. Provide contact info. I'll call you myself. I can send to you a LINK to my timing indicators AND have a ONLINE meeting with you to EXPLAIN EDUCATE and REVIEW your ideas.

STOP! Overpaying for Newsletters that tout well known stocks you already know about OR Lousy Services you follow BLINDLY & Spotty Results
I'll spend the one on one time with you and provide the timing indicators (trend & momentum) and my interpretation that I use for myself.

Do it Today...APRIL has the potential to be a VOLATILE month starting with FRIDAY and thru EARNINGS (April 12) and HALVING (April 19)
So it's a no brainer for us to talk. PREPARE! You're going to like the way it works.

Looking forward to helping you help yourself
Talk Soon,
Jim
