*"In a world of countless analysts, Option Professor stands out. His sense of perspective on all markets and sectors elucidates the big picture, as well as the shorter term. His observations have been remarkably prescient. He is a true, selfless teacher, being highly accessible and incredibly generous with his time. I regret that I did not find this class-act earlier."*

REMEMBER to take advantage of the SPECIAL OFFER at the end of this report.

What a Week!!....I came into the week with trades from last week of LONG PUTS in NEM FCX DVN OXY HAL SLB.....early in the week Those stocks tanked and PUTS SPIKED UP. 250%-500%. I then rolled into LONG CALLS on PLTR 21 strike and yesterday hit +600%! WOW!  
Past performance is not indicative of future results and options involve risk of loss and are not right for everyone.

What Now? The JOBS REPORT came in HOT! How Hot? Some estimates called for 140K and it came in DOUBLE that at 272K!  
What was the trade going into that report. TLT closed at 93.21. I saw 92.50 PUTS @ expiring TODAY 20 cents now trade at a buck! 500%!  
Of course, it was risky BUT did you think the report would show weakness? Who do you know that's been fired lately? Have you been to a restaurant lately....still packed so of course the bet was for a strong report AND My Indicators had TLT slamming into RESISTANCE at 93.35.

The ECB cut rates which to me seemed STUPID. They CUT rates AND HIKED inflation forecasts. The FED is NOT going to do that in my view  
In fact, I was in ITALY last month and the water buses in the Grand Canal were PACKED! Summer travel is ahead Italy Portugal Spain will rock!

DO NOT BE FOOLED! This morning, they hit the S&P 500 down toward SUPPORT at 5315 with additional support at 5290 and 5230.  
I have a plan of action that I am setting up IF we are going to get what Goldman Sachs says is a "wall of money" going to come in out of the \$7.3 trillion money fund by July OR if Tom Lee of Fundstrat call of 5500 S&P 500 by the end of June has merit. The CONSUMER=Earnings!

If you were looking for a rate cut....forget it. Gold & Copper already forgot it down 50 bucks (I got strangles for next week on NEM FCX)

Right Now....It's YOUR MOVE....I have a Special Offer to help you LEARN MORE and prepare for the end of Q2 (June) and the start Q3 (July)

SPECIAL OFFER- I am going to be available for a LIMITED NUMBER of ONLINE Learning Sessions starting today, Saturday and early next week

We are at MID YEAR and near ALL TIME HIGHS. Will STOCKS accelerate again and then get hit in Aug-Oct as usual? Gold done? Oil Run? Have your stocks TOPPED? The VIX has been LOW for a long time...Is the party OVER? Rates are SPIKING UP again today.....more top come?
