"In a world of countless analysts, Option Professor stands out. His sense of perspective on all markets and sectors elucidates the big picture, as well as the shorter term. His observations have been remarkably prescient. He is a true, selfless teacher, being highly accessible and incredibly generous with his time. I regret that I did not find this class-act earlier."

I think the 1 hour meeting was great, it was informative and I think it would help those that are interested in a system

that is relative easy to follow and enable one to make money on small swings in the market using options.

*Thank You,

OPINIONS & OBSERVATIONS

The Option Professor-Trained at The Options Institute. Educated Thousands of Traders-Avoid Costly Mistakes!

The stock market has made new highs CONSTANTLY for the last month or so creating a certain type of trading environment.

Ahead, we have the election, Fed meeting, more jobs numbers and an uncertain progress in 2 huge wars (Ukraine-Israel-Iran)

We also continue to get GREAT economic numbers (today retail sale beat on the upside and jobless claims were much lower.)

Stocks made new all-time highs but I see some divergences in momentum (first sign of concern). GOLD made new all time highs

There are 3 Option Strategies that I believe traders AND Investors should get to know RIGHT NOW. One Option Strategy involves limited risk and unlimited potential. The other 2 Option Strategies involve using Options with a Strategic Strategy purpose in mind.

The markets (Stocks, Oil, Gold, Bitcoin, The Dollar, and Overseas Markets) are entering into a Seasonal period (end of calendar year/start of New Year. We are also entering a Period of significant Event Risk. We think NOW is a great time to help traders/investors LEARN More!
