"In a world of countless analysts, Option Professor stands out. His sense of perspective on all markets and sectors elucidates the big picture, as well as the shorter term. His observations have been remarkably prescient. He is a true, selfless teacher, being highly accessible and incredibly generous with his time. I regret that I did not find this class-act earlier."

-Dr. George Fee

I think the 1 hour meeting was great, it was informative and I think it would help those that are interested in a system

The Fed announced that it would REDUCE its sales monthly (QT) to \$5 Billion from \$25 Billion which I saw as a nod to Bessent who said he is the world's largest bond salesman, and he didn't want to compete with Fed sales (dovish). BUT they hiked inflation and unemployment targets while lowering growth forecasts. With high valuations that are contracting, that news was not good. Relief rally going into Fear Day April 2???

Three (3) things coming that could be market moving events #1 End of Quarter (Next Friday) window dressing and Triple Witching Expirations (estimates \$4.5 trillion) of equities to settle. #2 April 2-Is this the Funeral of International Trade (Fear day) OR will deals be done or delayed?

#3 IMPORTANT! Earnings season kicks off with the BANKS which have all sold off big time and some reports say the trading desks are making \$\$
