"In a world of countless analysts, Option Professor stands out. His sense of perspective on all markets and sectors elucidates the big picture, as well as the shorter term. His observations have been remarkably prescient. He is a true, selfless teacher, being highly accessible and incredibly generous with his time. I regret that I did not find this class-act earlier."

-Dr. George Fee

I think the 1 hour meeting was great, it was informative and I think it would help those that are interested in a system

that is relative easy to follow and enable one to make money on small swings in the market using options.

*Thank You,

01/15/26 - 3 Stocks Up Big News--Best IDEAS

Hello Everybody!

Today we got news from Taiwan Semiconductor TSM and it has sent shock waves through the market.

They expect revenues to be rising at a 30% clip BUT they are expect cap ex spending to be \$56 billion UP from \$49 billion last year!

The guidance they gave thru 2029 was very positive, so fear of AI momentum slowing has been put aside for now by this report.

IMPORTANT- TSM did indicate the risk that the AI build out and capital investment is way ahead of AI demand and ROI remains.

Three (3) standout stocks that have celebrated this report (jumped up almost 10% at one point) are:

1. Applied Materials AMAT
2. Sandisk SNDK
3. KLA Corp KLAC

Also; NVDA ANET ASML STRL AMD MU AVGO NBIS CRWV plus energy related to data centers NRG BE VIST welcomed the news

BULLISH-The VIX is well under the critical 20 level AND the Percent of Stocks ABOVE their 200 Day Moving Average is rising
