"In a world of countless analysts, Option Professor stands out. His sense of perspective on all markets and sectors elucidates the big picture, as well as the shorter term. His observations have been remarkably prescient. He is a true, selfless teacher, being highly accessible and incredibly generous with his time. I regret that I did not find this class-act earlier."

-Dr. George Fee

I think the 1 hour meeting was great, it was informative and I think it would help those that are interested in a system

that is relative easy to follow and enable one to make money on small swings in the market using options.

Thank You,
Randy B.

05/01/26 - Stocks Up--GOOG--QCOM--5 Sector IDEAS for Next Week

Hello Everybody!

Stocks exploded into the end of the month of April today as EOM window dressing and earnings were a powerful combination.
Stocks like QCOM-CAT-GOOG had bullish reactions to earnings reports today that richly rewarded short-term call buyers as premiums exploded.

NEXT WEEK- Some stocks have EARNINGS coming out next week; others that have shown some upside momentum or are widely followed
Risk- When stocks have strong up moves before earnings; prices may be discounting good news. Maybe a buy the rumor; sell the fact situation
