The following testimonials have been received for the one-hour coaching session with The Option Professor, CALL 725-254-6423 to get started.

"In a world of countless analysts, Option Professor stands out. His sense of perspective on all markets and sectors elucidates the big picture, as well as the shorter term. His observations have been remarkably prescient. He is a true, selfless teacher, being highly accessible and incredibly generous with his time. I regret that I did not find this class-act earlier."

-Dr. George Fee

I think the 1 hour meeting was great, it was informative and I think it would help those that are interested in a system

that is relative easy to follow and enable one to make money on small swings in the market using options.

*Thank You,
Randy B.*

06/25/26 - Stocks--MU Spikes--What Now? 2026 Best IDEAS

Micron (MU) crushed Revenue (\$41B+ vs \$35B-+346% YOY)) and Earnings estimates \$25+ vs \$21+.

Also, All-Time Record Gross MARGINS 84.9%! Forward GUIDANCE on Revenue \$49-\$51B, Earnings \$31, MARGINS 86%!

Supplies are tight and expected to remain tight due to Strategic Customer Agreements for HBM capacity through 2027.

Here's my view:

The memory mania is in full bloom after this report (WDC STX spiked too) BUT to get the S&P 500 (SPX) back on solid footing

Prices need to HOLD 7350-7250 and sustained CLOSES 7450+-7550. The VIX UNDER 20, Percent Stocks Above 200D=55-50.

KEY METRIC- To me, the Percent of Stocks Above the 200-Day Average. Why? Because if we break 55-60, the odds of a major

breakout to the upside jumps while a move below 50-45 tilts the odds of a full reversion toward 7000 SPX more likely.

KEY EVENT- Fed Chairman Warsh's clarity on Inflation Fight He'll Win, and the response in 2yr Treasuries vs 10-30yr Treasuries.

The market has bought in that Inflation will be anchored due to short term rates tightening and Oil coming down. Goal 2%+

Warsh hopes this will lead to ultimately lower borrowing costs. ALSO; some sectors have already started Positioning that way.

SECTOR WATCH- If inflation were to come down and longer- term yields were to come down-Who may win, Who may lose?

Consumer may have more money to spend-borrow for discretionary and non-discretionary purchases

Some stocks have turned and moved but monitoring them makes sense if you felt they would benefit

1. Real Estate-Homebuilders-Improvement DHI KBH LEN TOL PHM VEEV SPG LOW FND MAS WHR WSM HD
2. Financials-Insurance-AFRM UPST COF RF TFC HBAN PGR ALL EG TRV ACGL (other banks and brokerages)

NOTE: If Crude Oil fills the GAP between \$65-\$70 and sustains above \$73-\$76, ENERGY stocks may regain a bid.

Energy- CVX XOM FANF COP PSX VLO MPPC WMB LNG SLB HAL DINO OXY

Higher short-term rates may hurt values of Gold, Silver Bitcoin and the Net Interest Income of the banks Caveat Emptor
